Urban forestry Urban forestry advocates the role of trees as a critical part of the urban infrastructure. forester. Urban forestry involves both planning and management, including the programming of care and maintenance operations of the urban forest. Urban forestry is practiced by municipal and commercial arborists, municipal and utility foresters, environmental policymakers, city planners, consultants, educators, researchers and community activists. While in-classroom education is one method of training, experiential learning is highly recommended in order to hone the more technical aspects Urban forestry is the care and management of single trees and tree populations in urban settings for the purpose of improving the urban environment. Urban foresters plant and maintain trees, support appropriate tree and forest preservation, conduct research and promote the many benefits trees provide 67d1954079
