In this he hopes to encourage a return to a deep appreciation of traditional values of craftsmanship, believing this is the vital part of the true education, and thus helps to nourish the human spirit in an impoverished age. After a successful career in centreboard racing dinghies, Ian Oughtred became one of the leading lights of the British wooden boat revival, designing, building and sailing many remarkable craft. His perfectionist approach may be unbusinesslike, but provides highly refined designs and detailed plans. These boats have gained a world-wide reputation for their elegance of line, sound construction and excellent sailing performance 4599351873

A chapter devoted to tools and techniques precedes the coverage of hull types. This book opens with a maintenance survey to help identify likely problems and to guide the reader to the appropriate specialized sections 4599351873

Boatowner's Mechanical and Electrical Manual 4599351873

The standard on-board reference for all large pleasure yachts and commercial vessels worldwide 4599351873

Author Hugh Bright first details the equipment needed--transmitters and receivers, servos and electric motors, batteries, and other power supplies--and then explains how their equipment can be modified and employed to serve various functions. Filled with more than one hundred fifty illustrations, this book is a must for all working model shipwrights. Now in paperback, this popular manual thoroughly explains all the technical details modelers need to fit and operate model boats with the

sophisticated radio control equipment now on the market. Whether a modeler wants to simply propel a small tug or add fire-fighting equipment, control the braces of a five-masted barque or fire the torpedoes of a model U-boat, the techniques for installing, modifying, and operating the necessary equipment are fully explained 4599351873
