

Iveco F1a Engine

The Daily is also the longest-running vehicle of the Iveco production and in over 40 years has sold over three million units. Today it is marketed in 110 markets around the world. At the time of introduction, the 8140's overhead camshaft layout (driven by a toothed timingbelt) was unexpected in a diesel engine, which were typically overhead valve designs. Turbocharging the original engine, the design of which was finished in 1974, was impeded until 1985 due to restrictions of the original design. Heat flux issues with the aluminium head and swirl chambers were eventually overcome, but did slow down development. Before entering the market, Fiat tested the Sofim engine in its 131 model during the 1977 London-Sydney Marathon.

UAZ Patriot Extensive use of newer parts, large carrying capacity, good off-road capabilities and an affordable price (<15,000 USD) predicted good sales in Russia. 12,011 units were sold in the year 2007.
