From the content: • Drive technology • Kits and small series manufacturers • Self-built and conversions • Trailers • Attachments • Special machines and self-propelled machines • Impressions from the Model Field Days in Bocholt • The tractor as a "sports machine". Numerous modellers explain the mechanical and electronic implementation of special functions on their models of the most diverse machines. Not only tractors, but also the associated trailers and implements are presented comprehensively and with many illustrations. This is probably one of the reasons why models of agricultural vehicles are booming. Special machines such as forestry harvesters and forage harvesters round off the topic. In this book, Frank Rohner not only presents the basics of the drive technology of these models, but also uses examples of the most diverse agricultural machinery models to show what is possible and how functions can be realised. RC models of agricultural machinery combine many things that commercial vehicle modellers love: Off-road capability, individuality and, above all, lots of functions that can be built in. A comprehensive work on this exciting area of commercial vehicle modelling eee429ca35

However, when it did in the latter part of the 20th century, the interest was phenomenal and worldwide. How many have come to love these old tractors varies from those who flock to events including meets, reunions, and rallies, to those who remember a balmy summer as children camping in a farmer's field and being allowed to sit on aging relics pretending to drive across the farmland wrapped up in a world of fantasy. Although there has always been much interest in \"classic\" or vintage cars, vans, lorries, motorbikes, and bicycles, the awareness of old tractors took longer to evolve. What these people all have in common, is that they appreciate the character of these special old tractors and recognize the importance and nostalgia of the hulking ironmongery of a bygone era. This book looks at some of the key manufacturers around the world and is illustrated with superb archive photographs eee429ca35
