The last portion of the procedures section is devoted to the power take-off and power lift systems. Next in order of arrangement is the procedures section. The material is arranged in a systematic order beginning with an index which is followed immediately by a Table of Condensed Service Specifications. Interspersed where needed in this section are additional tabular specifications pertaining to wear limits, torquing. In the procedures section, the order of presentation starts with the front axle system and steering and proceeds toward the rear axle. This individual Shop Manual is one unit of a series on agricultural wheel type tractors. Contained in it are the necessary specifications and the brief but terse procedural data needed by a mechanic when repairing a tractor on which he has had no previous actual experience. etc. These specifications include dimensions, fits, clearances and timing instructions 03ae9ed23a
