Doom modding More than 30 other people also helped with the effort and their names Doom WAD is the default format of package files for the video game Doom and its sequel Doom II: Hell on Earth, that contain sprites, levels, and game data. WAD stands for Where's All the Data. Thousands of WADs have been created for Doom, ranging from single custom levels

to full original games; most of these can be freely downloaded over the Internet. while Steve Bareman led the documentation effort and creation of the DEU Tutorial. Immediately after its release in 1993, Doom attracted a sizeable following of players who created their own mods for WAD files—packages containing new levels or graphics—and played a vital part in spawning the mod-making culture which is now commonplace for first-person shooter games. Several WADs have also been released commercially, and for some people the WAD-making hobby became a gateway to a professional career as a level designer 48c77b0de9
