We create these self-practice test questions referencing the principles and concepts currently valid in the residential building profession. This product covers the building construction technical topics only. You should use this product together with other study resources for the best possible exam prep coverage. We want to make sure these questions are tough enough to really test your readiness and draw your focus to the weak areas. Each question comes with an answer and a short explanation which aids you in seeking further study information. The exam covers

technical topics as well as business & law topics 466832b1db
