Horizon Zero Dawn was Guerrilla Games' first new intellectual property since Killzone in 2004 and its first open-world and role-playing game. Director Mathijs de Jonge considered it the riskiest idea among those pitched. Development began in 2011 after the completion of Killzone 3. The game engine, Decima, was developed for Killzone: Shadow Fall and modified for Zero Dawn. The game uses vibrant colours and was designed to evoke a sense of adventure and hope despite its post-apocalyptic setting. Unlike its elder stablemate 'Sapporo Autumn Gold', 'New Horizon' initially has a compact, pyramidal form, with comparatively dense foliage comprising glabrous, dark-green, elliptical leaves < 12 cm long by 7 cm broad, occasionally without the asymmetric bases typical of the genus. The perfect, apetalous wind-pollinated flowers appear in March, followed by the seeds in April; flowering, and consequent fruiting, is sparse, in common with its female parent Japanese Elm, and usually begins when the tree is aged... 7f67296e53 Horizon Air started operations in September 1981, was purchased by the Alaska Air Group in November 1986, and continued to fly as a separately branded airline until 2011, when it shifted to the current capacity purchase agreement business model. 7f67296e53 The airline is headquartered in the Seattle suburb of SeaTac, not far from Seattle–Tacoma International Airport, and the airline's primary maintenance base is at Portland International Airport. In 1784, John Michell proposed that gravity can be strong enough in the vicinity of massive compact objects that even light cannot escape. At that time, the Newtonian theory of gravitation and the so-called corpuscular theory of light were dominant. In these theories, if the escape velocity of the gravitational influence of a massive object exceeds the speed of light, then light originating inside or from it can escape temporarily but will return. In 1958, David Finkelstein used general relativity to introduce a stricter definition of a local black hole event horizon as a boundary beyond which events of any kind cannot affect an outside observer, leading to information and firewall paradoxes, encouraging the re-examination of the concept of local event horizons and the notion of black holes. Several theories were subsequently developed, some with and some without event horizons. One of the leading developers of theories to describe black holes, Stephen Hawking, suggested that an apparent horizon should be used instead of... 7f67296e53 Guerrilla Games began developing Forbidden

West in 2018. The development peaked at over 300 full-time employees and cost around US\$212 million, making the game one of the most expensive ever to develop. One of the team's goals was to retain the core qualities of the original game, and the team made efforts to expand exploration and combat to support various playstyles. Guerrilla also invested more resources into creating the game's cinematics... 7f67296e53 Horizon Air was formed in May 1981 by Milt Kuolt, Joe Clark, and Bruce McCaw, with initial plans to fly to Hawaii but later changed to serve... 7f67296e53 == Arts, entertainment and media == 7f67296e53

Deepwater Horizon Deepwater Horizon was an ultra-deepwater, dynamically positioned, semi-submersible offshore drilling rig owned by Transocean and operated by the BP company Deepwater Horizon was an ultra-deepwater, dynamically positioned, semi-submersible offshore drilling rig owned by Transocean and operated by the BP company. The fire was inextinguishable and, two days later, on 22 April (Earth Day's 40th anniversary), the Horizon collapsed, leaving the well gushing at the seabed and becoming the largest marine oil spill in history. On 20 April 2010, while drilling in the Gulf of Mexico at the Macondo Prospect, a blowout caused an explosion on the rig that killed 11 people and ignited a fireball visible from 40 miles (64 km) away 7f67296e53

Built in 2001 in South Korea by Hyundai Heavy Industries, the rig was commissioned by R&B Falcon (a later asset of Transocean), registered in Majuro, and under lease to BP from 2001 until September 2013. In September 2009, the rig drilled the deepest oil well in history at a vertical depth of 35,050 ft (10,683 m) and measured depth of 35,055 ft (10,685 m) in the Tiber Oil Field at Keathley Canyon block 102, approximately 250 miles (400 km) southeast of Houston, in 4,132 feet (1,259 m) of water. 7f67296e53 Their debut album Count Your Blessings (2006) features a deathcore sound that the band moved away from starting with their second album Suicide Season (2008), which incorporates metalcore. The album was considered a creative, critical and commercial turning point for the band. The band's third album, There Is a Hell Believe Me I've Seen It. There Is a Heaven Let's Keep It a Secret. (2010), propelled them to greater international fame, retained their metalcore sound whilst fusing influences from classical music, electronica and pop. Their major label debut, Sempiternal (2013), achieved Gold certification in Australia (35,000) and Silver in the United Kingdom (60,000). That's the Spirit (2015) debuted at number two in the UK Albums Chart and the US Billboard 200. 7f67296e53 Horizon or The Horizon may also refer to: 7f67296e53
