The MQA system is a three-part process applied to digital audio music recordings comprising 1) modifying and controlling the end-to-end digital filter response; 2) preparing the audio for transfer to a smartphone or audio device using a lossy audio compression format with authentication; and 3) decompressing the recording for playback.

2ece46065d Ed Roberts and Forrest Mims founded MITS in December 1969 to produce miniaturized telemetry modules for model rockets such as a roll rate sensor. In 1971, Roberts redirected the company into the electronic calculator market and the MITS 816 desktop calculator kit was featured on the November 1971 cover of Popular Electronics. The calculators were very successful and sales topped one million

dollars in 1973. A brutal calculator price war left the company deeply in debt by 1974. 2ece46065d
