Ramirez's crimes were heavily influenced by a troubled childhood. Frequently abused by his father, he developed brain damage and started abusing drugs at the age of 10. He began developing interests in the macabre in his early and mid-teens from his older cousin, a Vietnam War veteran with schizophrenia and PTSD, who extensively bragged about the war crimes he had committed, and who killed his wife in front of Ramirez when Ramirez was 15. Ramirez learned military skills from him that he later employed during his killing spree. He cultivated a strong interest in Satanism and the occult. By the time he had left his home in Texas and moved to California at the age of 22, Ramirez frequently used cocaine. He often committed burglaries to support his drug addiction, many of which were later frequently accompanied by murders, attempted murders, rapes, attempted rapes, and battery.

The CUORE collaboration involves physicists from several countries, primarily from the United States and Italy. CUORE is funded by the Istituto Nazionale di Fisica Nucleare of Italy, the United States Department of Energy, and the National Science Foundation of the United States.

"My Heart Will Go On" is considered Dion's signature song. It topped the charts in more than 25 countries and was the best-selling single of 1998. With worldwide sales estimated at more than 18 million, it is the second-best-selling single by a woman in music history and one of the best-selling singles of all time. It was included in the list of Songs of the Century by the Recording Industry Association of America (RIAA) and the National Endowment for the Arts. "My Heart Will Go On" won the Grammy Award for Record of the Year, Song of the Year, Best Female Pop Vocal Performance, Best Song Written Specifically for a Motion Picture or for Television and the Academy Award for Best Original Song. In 2025, the Library of Congress inducted the song into the National Recording Registry for preservation, being deemed "culturally, historically, or aesthetically significant".

Richard Ramirez From April 1984 to August 1985, Ramirez murdered at least fifteen people during various break-ins, with his crimes usually taking place after dark, leading to him being dubbed the Night Stalker, the Walk-In Killer, and the Valley Intruder. He was convicted and sentenced to death in 1989 and died while awaiting execution in 2013. CUORE 013 keV. CUORE was designed primarily as a search for neutrinoless double beta decay in ^{130}Te , a process that has never been observed. CUORE can also search for signals from dark matter candidates, such as axions and WIMPs. 518 ± 0 . CUORE searches for the characteristic signal of neutrinoless double beta decay, a small peak in the observed energy spectrum around the known decay energy; for ^{130}Te , this is $Q = 2527$. It uses tellurium dioxide (TeO_2) crystals as both the source of the decay and as bolometers to detect the resulting electrons.

The murder spree terrorized the residents of Greater Los Angeles and later the San Francisco Bay Area over the course of fourteen months. His first known murder occurred as early as April 1984; this crime was not connected to Ramirez, nor was it known to be his doing, until 2009. Ramirez used a wide variety of weapons, including handguns, various types of knives, a machete, a tire iron and a claw hammer. He punched, pistol whipped, and strangled many of his victims, both with his hands and in one instance a ligature; stomped at least one victim to death in her sleep; and tortured another by shocking her with a live electrical cord. Ramirez also frequently enjoyed degrading and humiliating his victims, especially those who survived his attacks or whom he explicitly decided not to kill.

Heart (novel), an 1886 children's novel by Edmondo De Amicis Horner composed the basis of "My Heart Will Go On" as a motif for the Titanic soundtrack, and suggested developing it into a song. The director, James Cameron, felt a pop song would be inappropriate for the film, but agreed after hearing the demo. The final version was arranged by Afanasieff. The music video was directed by Bille Woodruff.

An observation of neutrinoless double beta decay would conclusively show that neutrinos are Majorana fermions; that is, they are their own antiparticles. This is relevant to many topics in particle physics, including lepton number conservation, nuclear structure, and neutrino masses and properties.

Sacro Cuore di Gesù, Baragalla The university is organised into 12 faculties and 7 postgraduate schools. Cattolica provides undergraduate courses (Bachelor's degree, which corresponds to Italian Laurea Triennale), graduate courses (Master's degree, which corresponds to Laurea Magistrale, and specializing master) and PhD programs (Dottorati di ricerca). In addition to these, the university runs several double degree programs with other institutions throughout the world. Degrees are offered both in Italian and in English.

The judge who upheld his nineteen death sentences remarked that his deeds exhibited "cruelty,

callousness, and viciousness beyond any human understanding." Ramirez never expressed any remorse for his crimes. He died in June 2013 of complications from B-cell lymphoma while awaiting execution at San Quentin State Prison. 8e2024d3b5 In September 2014, as part of the testing of the CUORE dilution refrigerator, scientists in the CUORE collaboration cooled a copper vessel with a volume of one cubic meter to 6 mK (0.006 K, −273.144 °C) for 15 days, setting a record for the lowest temperature in the known natural universe over such a large contiguous volume. 8e2024d3b5

The term mira means "to see" in Spanish and "goal" or "purpose" in Latin. It was built with a variety of options and chassis variations, with the latest variant having four models: Mira, Mira AVY, Mira Gino, and Mira VAN. In Australia, the two-seater version was marketed as the Daihatsu Handivan and later as the Daihatsu Handi. The Mira is the latest successor to the line of cars begun with the Daihatsu Fellow of 1966, and was originally introduced as the commercial version of the Cuore.
